Standing Podiums

Model: SP Contemporary

Its' no nonsense design makes this a sensational value. Features a 16" wide Pillar Space that works great for logos and comes with dolly wheels for easy transport. Shown here built in Oak with red oak stain. (45h x 24w x 18d)

Model: SP Traditional (Modern Style)

This unit has front access and rack rails with a cooling fan. The top is flat with black Formica finish. The rear door, front access, and cooling fan are options.

Shown here in Mahogany with light walnut stain and lacquer. (46H x 27w x 22d)

Model SP Traditional

This beautiful standing lectern features a flat recessed panel design and black laminate work surface. One shelf, cable management grommets, and dolly wheels for easy transport come standard. Shown here built in Red Oak with a colonial maple stain and with optional engraving. (45h x 27w x 22d)

Model: SP Raised Panel

The Rich Premium look and feel of our Raised Panel Podium is an example of our superb craftsmanship. One shelf, cable management system and dolly wheels for easy transport are standard features. Shown here built in solid Mahogany with a lacquer finish. (47h x 32w x 21d)

Standing Podiums

Model: SP Standard

This is a scaled down version of our MM Standard Lectern. It has a Formica top, fixed shelf and dolly wheels standard. (44h x 26w x 21d)

Model: SP Reveal

A narrow version of our popular Multimedia Reveal unit; can accommodate many of the same options featured on page 11. Cable management and dolly wheels are standard. Shown here in Cherry with colonial maple stain and lacquer. (45h x 26w x 22d)

Model: SP Tambour

The beauty of our deep revealed tambour lectern is another example of our superb craftsmanship. Shown here, built in a Cherry hardwood and tambour with a Formica top; finished with a cinnamon stain. (46h x 34w x 24d)

Model: SP MeM

This model has some interesting features. The radius corners and top surface trim is done in stainless steel but can be done in other metals and materials. The front has chevron figured veneer and is in Maple with lacquer finish. (45H x 28w x 28d)

Multimedia Lecterns

Model: MM Reveal

One of our most popular models features a reveal inset for a modern look. It is shown here in Cherry with a cinnamon stain and lacquer finish. Also shown are several options you may be looking for. (45h x 42w x 30d)

Model: MM Columnar

Fluted columns give this unit its' distinct character. Shown here with optional split top, control panel, and open rack rails. (47h x 46w x 30d)

Model: MM Carol

The extra top and bottom molding adds character to this Walnut unit with lacquer finish. Unit sizes can vary depending on your needs. Shown with optional logo. (45h x 36w x 30d)

Multimedia Lecterns

Model: MM Standard

With a clean contemporary design; shown here in Cherry with cinnamon stain and lacquer. Options shown with this unit are document camera drawer, Lillite, keyboard tray, and cutouts in top. (45h x 42w x 30d)

Model: MM Standard with Reveal Lines

This unit is the same basic design as the one above except it has reveal lines that exhibit a different character. Also shown is a full front access panel. It is Maple with clear lacquer finish. (45h x 42w x 30d)

Model: MM Standard with arched top and sides

Here is another example of the many variations of the MM Standard. The arched top and sides give this unit its unique character. (45h x 42w x 30d)

Multimedia Carts

Model: MMRC

A rack cart that can look good anywhere. It can be modified to meet your needs. This unit is in Mahogany with a lacquer finish. It comes with the cooling fan and grommet on the side. It also has an external AC plug to power the systems in the unit. (Base size is 36"h x 25"w x 27"d)

Model: MMC2

A versatile cart/lectern for quick setup and easy presentations. This unit comes with keyboard drawer, document camera drawer, cooling fan, AC cable input and an adjustable shelf. Typical size (42h x 40w x 26d) This unit is in Oak with lacquer stain.

Model: MMCA

It will all fit in this roll around unit. Shown here in colored Formica outside and black Melamine inside. This unit has a document camera drawer, laptop drawer, projector drawer, rack rails on one end and a fixed shelf on the other. It also has AC cable input and a cooling fan. It can be made with any wood and finish. Typical size (44h x 41w x 28d) It also has a beautiful brass push/pull handle.

Multimedia Newvision

Model: MM Newvision

A modern design with a rounded top. This unit is Cherry with a cinnamon stain. Doors, document camera drawer and keyboard drawer are options. Sizes vary.

Model: MM Newvision RPM

This is a beautiful Walnut raised panel version of the Newvision series. Multiple options are available on this unit as many others.

Model: MM Newvision 2

The Newvision 2 comes in multiple versions and configurations. Just let us know how you want it to meet your needs.

Model: MM Newvision 3B

This cart makes a nice teaching station set up in any way you need it configured. This one is in Oak with a lacquer finish.

Credenzas and Tables

This "V" shaped table has a Maple inlay top with Cherry edging and base. Can be built in several sizes.

This table is called a stretched octagon or boat shaped. It is also Maple inlay top with Cherry edging and bases with a lighter stain.

This is a two door credenza with a Maple inlay top and Cherry wood.

Here a credenza built with all Cherry. This is a 4 door model.

These tables are built from Walnut. A small square table on the left and a long rectangular on the right. Note that the pedestals have cable access doors and most units have a cable tray running under the table from pedestal to pedestal.

This is a raised panel credenza with a document camera drawer and black laminate top. It is Cherry with cinnamon stain.

Here is an Oak credenza with black laminate top. The Oak has a finish of lacquer only.

Teaching Stations

Model: TS Avery

This unit is shown in Maple with a clear lacquer finish. It has a removable table top lectern, plenty of grommet holes for cables, a fixed or adjustable shelf and a lift shelf on the side. This unit has been modified in many ways for different customers. It typically comes with a black laminate top.

AV Desk

This teaching desk is designed to hold AV equipment to enhance the teaching experience. It has pushbutton locks on all the doors to the AV equipment. This unit is built in Oak wood with a clear lacquer finish and a black laminate inset top.

Computer Desk

This unit is in Cherry with a customer stain match and satin lacquer finish. It has a keyboard shelf, rack rails, front access, cooling fan and lockable door.

Teaching or IT Station

This station is Mahogany with cherry stain and lacquer. It can be configured many ways. It is presented here to stimulate ideas.

The Riverwood Collection

A few words about Mulnix Industries...

Founded in 1998, Mulnix has quickly grown into a full service manufacturer of custom hardwood lecterns and other presentation furniture. We can design and engineer a product with your wishes and needs in mind using only the finest materials. With our expertise not only in the manufacture of fine furniture but also the Audio/Visual field, we know how to make your projects come together and work properly.

Need it quick?

While other manufacturers can take several months to make a lectern, ***Mulnix can have it ready in a few weeks***, sometimes even sooner if the situation requires. One of the fastest in the industry! So when you find yourself in a pinch, call Mulnix.
